

## Press Release

### Mitsubishi Electric Thai Foundation donated 1.2 million Baht to create educational opportunities for Engineering students

Mitsubishi Electric Thai Foundation, as part of our long-term view, we believe the education is the key to success and the Foundation has been supporting Thai Education since the beginning of our establishment. As the underlying concept behind the Sustainable Development Goals (SDG), to “Leave no-one behind”, our foundation strives to achieve this goal as well. This year it holds a scholarship award ceremony for the year 2020 to provide 1,200,000 Baht of scholarships to create educational opportunities for students of the Faculty of Engineering from 4 universities.

Mitsubishi Electric Thai Foundation led by Mr. Hisashi Hiraki, Director and Secretary of Mitsubishi Electric Thai Foundation, along with Mr. Hideyuki Nagata, Executive Advisor of

Mitsubishi Electric Asia (Thailand) Co., Ltd, together present the scholarships for Engineering students to advance their studies until graduation without obligation for the year 2020 to representatives of students from the Faculty of Engineering from Chiang Mai University, Chulalongkorn University, Kasetsart University and Thammasat University. The Scholarship Program has been granted for 28 consecutive years. The aim of the scholarship is to support underprivileged students as well as encouraging them to be determined in the use of knowledge and capabilities that they have learned to help develop Thai society and the country as a whole.

Throughout more than 56 years of business operation of Mitsubishi Electric Group Company in Thailand, various activities have been contributed to society continuously. Especially in the areas of education, such as Scholarship Granting, Science Classroom activities and Prateep Dek Thai Project to help construct Child Development Center. This is in line with Mitsubishi Electric Group's corporate statement and our ambition for "Changes for the Better" that strives to change for the better society along with business operations.
